

**CUMULATIVE INDEX OF AFTE JOURNALS AND NEWSLETTERS
from May 1969 through Fall 2005**

Compiled by Rocky S. Stone
741 South Highway 217
Tijeras, NM 87059
e-mail: rockyabq@aol.com

This index has been compiled utilizing the logical keywords for which an examiner would probably be searching if the information in the particular article would answer that general or particular question. Commonly, the entries for each article include the recommended keywords of the authors, but not always. In most cases, there are multiple index entries for each article.

Please let me know by email if you discover omissions, errors, or duplications. Thanks.

Please note: I **do not** offer or provide reprints of articles.

Additional notes:

Entries in red indicate possible safety-related issues.

Page numbers are listed after the issue designation (i. e. "...Fall 01 322" will be on page 322 of the Fall 2001 issue).

Numerical entries (such as "3-D") in primary headings are listed alphabetically as if spelled out (i. e. "Three-D").

Newsletters are listed as "NLR" and the number of the newsletter.

Peer review (published comments) concerning a particular article are indexed with the original article entry.

A useful feature of this format is the ability to utilize the "Search" feature of your word processor. If you can't find what you're looking for, try a "Search" for all or part of the terms in which you're interested. If it's a firearm model number, try it both with and without a hyphen. If you don't know the exact spelling, try a portion of the spelling. For example, if you're looking for "Schönebeck", try a search for "beck".

I've started including entries for the authors of the articles and will include them in all subsequent updates to the index. For the older Journals, author names will be added as time and energy permit. The format for author entries is:

Last name, First Name and Initial(s) [Title of Article] ...Journal issue and page
No personal titles, ranks, or credentials will be listed.

Words such as "A", "An", or "The" as the first word of the title of an article are omitted.

Also refer to the "References" listed at the end of each article in the AFTE Journal.

=====

A. A. Arms - AP9 pistol - Unrifled ...Jul 95 197
A. J. Ordnance - See **Alexander James Ordnance**
Abraham, Johny T. [Air Guns Altered to Fire Rimfire Cartridges] ...Spring 05 150
